

“Life at Pacific Life Re is fast, fun and rewarding.”

How long have you worked at Pacific Life Re?

I began working at Pacific Life Re straight out of university 6 years ago.

What is your favourite thing about working at Pacific Life Re?

I love the small company feel, in what has become a big company.

Describe the company in 3 words.

Fun. Fast. Rewarding.

What has been your biggest achievement in your career so far?

I'd be lying if qualifying as an Actuary wasn't up there as a career achievement. Other than that, I would say: seeing the rewards of winning a quote that has taken a lot of time and effort to get over the line.

What has been your favourite work social event since joining the company?

Assuming I'm not allowed to count the Christmas and summer parties... I would probably say All Star Lanes Bowling or White Water Rafting.

Have you taken part in any extra training during your time at Pacific Life Re? If so, what new skills did you gain?

Many! From front office training such as sales, to more back office -focussed such as report writing. It feels like it's more important than ever to have a rounded skillset as an Actuary, so the areas of training on offer are all-encompassing.

3 essential items to bring to a deserted island

My Kindle, a lilo and a tennis racquet, although I'm not sure how useful that would be!
